

Lyndale 
Estates Maintenance Ltd

Cut, trim,
weed and
strim...

And so much more!

Here at Lyndale we pride ourselves on providing an efficient, reliable service that ensures the ground around your premises helps to convey the right image for your business.

First impressions are so important and we know that untidy lawns and unkept hedges, together with rubbish and weeds can be seriously off putting to your customers.

We also know that a little colour in the form of small flower beds, planters and/or hanging baskets can convey a positive atmosphere that will enhance your business and encourage others to work with you.

So if you are frustrated with trying to maintain your grounds internally, or feel that your current supplier does not give you what you are looking for, call us for a no obligation chat on what we could do for your business.

Organisations that we typically help:

- Schools
- Commercial Offices
- Hotels, Restaurants and Pubs
- Community Housing
- Health Centres and Hospitals
- Industrial units
- Residential Homes
- Freeholders and Managing agents

What's special around Lyndale, apart from the excellent quality of our work?

Well:

Grounds maintenance is not just about providing aesthetically pleasing areas, it is also about caring for our precious environment.

Consequently we look to offer a wide range of complimentary facilities here, including where applicable: Composting areas, wildlife corners and sensory themes, which can be enjoyed by staff and customers alike. Whilst we keep to a routine schedule to ensure that your grounds are regularly maintained to a high standard, if you wish to change your schedule to accommodate an important customer or VIP visit etc., we will strive to meet your requirements.

As well as providing pleasing garden areas, the health and safety of users remains paramount. We can provide initial guidance on suitable plants and facilities to include within your garden area, as well as then formally checking them to confirm that they remain safe to use.

Did you know that even though you may have given your contractor the responsibility of disposing of your rubbish and garden waste, if they fail to do this properly, **YOU** are responsible for the outcome, not them!

Here at Lyndale we have all the appropriate licenses to ensure that we dispose of your rubbish and waste in accordance with legal requirements.
